

Project Title

From Awareness to Action: Supporting Systemic Responses to Sexual Violence Conference

Project Summary

There were 212 registrants who attended over 1600 sessions (both live and pre-recorded). Using a Hubilo platform the planning committee was able to keep the presentations available to registrants for an additional 2 months following the conference. We also supported student training by hosting a Student Symposium through the conference which offered participating students (1) a proposal/abstract writing workshop; (2) a peer-review workshop; and, (3) the ability to present during the conference.

Project Roles

Dr. Nathalie Reid - Principal Investigator

Project Partners

University of Regina Centre for Continuing Education
Regina Sexual Assault Centre

Project Funding

Social Sciences and Humanities Research Council: Connections Grant
