

Project Title

Cross-Sectoral Collaboration to Improve Outcomes for Children/Youth in Vulnerable Contexts

Project Summary

TRiP (The Regina Intersectoral Partnership) is a collaboration across 6 human service organizations. Using TRiP as a case study, this research aims to investigate the formation and patterns of collaboration, factors influencing collaboration and service coordination across sectors, and processes and structures involved in building and maintaining a strong cross-sectoral collaboration.

Project Roles

Dr. Nathalie Reid - Co-Investigator

Dr. Akram Mahani - Principal Investigator

Project Partners

TRiP

Project Funding

Canadian Institutes of Health Research: Catalyst Grant
