

## Project Title

Conducting a Pan-Canadian Knowledge Synthesis of Trauma-Informed Best Practices in Education

## Project Summary

Recent Research highlights educators' repeated requests for support in relation to trauma-informed/sensitive ways of supporting themselves and their students. The Child Trauma Research Centre undertook a pan-Canadian knowledge synthesis and mobilization project in relation to trauma-informed best practices in education.

The project yielded a report and 20 knowledge briefs, offered in both English and French on the Ministry's Blackboard site, and on the CTRC's Connection Hub.

## Project Roles

Dr. Nathalie Reid - Principle Investigator

## Project Partners

Saskatchewan Ministry of Education

## Project Funding

Saskatchewan Ministry of Education
